AL-IQRA EDUCATIONAL & SOCIAL WELFARE SOCIETY, BELGAUM

Dear brothers in Islam, Assalamu alaikum

Development and prosperity of any community is directly related to progress that particular community makes in education front. Community which realises the importance of education and its implications shall certainly wins the race in any field and find itself ahead in all fronts.

Islam is the first, perhaps the only religion which gives highest priority for acquiring knowledge, which is obvious from Holy Qur'aan opening verses. But unfortunately we Muslims, still to achieve lot more.

The commercial aspect of modern age its impact on all, worst hit by this is education field, which is getting increasingly expensive. Commercialisation has taken its root so deep, parents who wish to provide higher education to their children return disappointed when education institutions demand huge donations and soaring fees. A poor student by hard work can obtain good or required number of marks but from where he get the huge amount of money? Parents who struggle to meet both ends are so hard hit by today's trend that out of frustration they give up the hope and discontinue further study of their child.

In order to meet such genuine demands of their fellow beings the youngsters have always rose to the occasion and together lifted the morale. They met with success whatever goal they set. Such group of youngsters who earn their living with honesty and willing to help others at the cost of their self interest are known and called as "AL-IQRA EDUCATION & SOCIAL WELFARE SOCEITY, BELGAUM".

Under this name and style some youngsters are willing to serve the weaker section of our society by extending all possible support and help to over come problems faced in the field of education and Medical Aid. The detailed report on this you will find ahead.

The society might not have fulfilled its 100% commitment for shortage of fund. Keeping in view the increased requirement, the management has taken some positive steps to raise funds. Therefore, on behalf of society I vehemently appeal those brothers of our community who can donate their might for this good cause in the form of Zakaat, Qurbaani, Sadaka and others. Alms Bor are specially kept at busy places like grossary, cloth and medical and medical stores so that the required and sufficient fund can be collected. Any body who wish to donate in person may contact Cell No. 0-98450-43261. Please remember the society entirely depend upon your contribution carryout its activities and fulfill the aspirations of needy people.

I take this opportunity to express my deep gratitude to those who have strengthened our hands by donating with generosity. May Allah, the bountiful be gracious to them all.....Ameen!

President
